## **Did you know that your baby's name isn't just 'NAME' or 'Name Tag'?**

Did you also know that every letter in your baby's name has a story to tell about baby's life on this planet earth? In fact each alphabet acts as building block in creating baby's entire life--month after month and year after year.

Have you ever wondered that most kitchens have same ingredients; yet when used in different proportions and in different sequences you could make biryani, rasam-rice, idly sambhar, aaloo parantha or just raggi mudde?

Naming a child is just like that. When the choice of alphabets and their sequence is right; tea seller's child can grow up as Prime Minister. When the name is incorrect; the Prime Minister's son continues to struggle!

## **Why give any name to your baby, when you could gift a name that would assure Super Success?**

It may be interesting to know that there are only 26 such life-building blocks (read 26 alphabets). However the permutations and combinations of these life-building blocks are innumerable. And most importantly, the name number must be harmonious with the Life Path number derived from DOB details. The four core numbers that must be in harmony with each other to ensure successful , peaceful and happy life are Life Path, Expression, Heart's Desire and Maturity number.

Apart from this a wise numerologist will also look at the Pinnacle, Challenge and Point of Intensification, and Planes of Expression number to ensure that the child will grow up as desired. Can you imagine, if each child could grow up as a successful, well-to-do, and good human being the life will become wonderful. The peace that world is looking for will just become a reality.

**Valmikki Method—a discovery that could create Super Success for everyone!**

When people say, “Karma is the only way to achieve success” they are RIGHT— but partially. Don’t we see thousands of people engaged in doing Karma that they don’t enjoy? Many people are working hard in jobs that they hate; but continue working as it pays them well or for the reasons best known to them. These guys can never be happy in their lives. And as a result, they can never experience Success or Super Success.

For achieving Super Success, you must be engaged in the activities that YOU enjoy and forget the sense of time when performing that activity. And most importantly; your work must cause a difference in other people’s lives. At least the people must find it entertaining.

For Super Success you must learn to include people in your life, community, country and world at large in your daily agenda. You must have a vision first. For that you must have clarity of purpose. You must be disciplined, consistent and persistent in your efforts. **Did you know that we can attract all these qualities by careful selection of alphabets in your name?**
