Read it as what you must do. It is never read as what you are.

Enjoy it and live up to it.

Once you start using your new/corrected name, you will discover that you must stand for all that is fine, philanthropic, charitable and beautiful. Make music, art, romance, drama, color, ideality, and perfection the standards of your life. By your presence, thought, and ways of doing things you can change the ordinary into lovely.

You will have ample opportunities and life will give you many gifts. To keep them for yourself, you must represent all that is fine, true and generous to the world.

Love, tolerance, compassion, understanding, and generosity are the keynotes to your success and happiness. You must learn to express forgiveness for one and all. Without it you may meet many experiences and tests where you might even seem to fail.

Learn that true love is service to the many rather than to the one. Then whatever you desire in love and companionship will come to you. To cling to personal love, possessions, and power might be to lose all. Yet when you express love as a Divine Law, you will receive greater love than you have ever dreamed of.

There is a tremendous power wrapped up in your nature which you can

Field of Opportunities:

There is no real limitation of place or opportunity for you unless you make it so by careless living. People in all walks of life will help and admire you. You too can help them when you train your mind to universal thought.

Writers, artists, designers, painters, orators, ambassadors and religionists must be among your friends. Physicians and lawyers would also make in your friend list. Even those in the lower walks of life must know your generosity.

Do not allow popularity to go to your head at any time. Always be impersonal. Weakness of purpose, or too worldly life are bad for you. It could cause you to miss the thrill of participating in molding the hearts and minds of humanity.

Lucky colors: Make the expression of your personality colorful. Do not be drab or colorless in your dress or environment. Wear red, carmine, lavender, olive, straw & smoke while at work.

Your ideals are high and you have a tremendous power to influence others for good. Having a high sense of perfection you are often discouraged when you fail to find your ideals in others. You must consciously disallow these moods to continue. When you aspire to *Divine* love you can touch the *cosmic mind and heart* with your fine and warm soul.

Your deep and intuitive understanding enables you to reach the hearts of people. Through expressing love compassion, tolerance and philanthropy you become one of the chosen persons of the earth. This means that forgiveness, patience, and sympathy, even for the lowest, must always flower in your heart.

You are essentially emotional. Many times you are torn to pieces by your *feelings and struggle* between your *higher self* and *personal desires & ambitions*. You strive to reach the goal of beauty, love, and service. You can inspire ideals in others and lift them to great heights of perfection.

When you allow yourself to become involved in emotions, you can cause confusion in the lives of these who love you.

Learn to control your own emotions, for they can ruin you or make you too sensitive for your own good. Follow the beauty of your own soul and focus on creative endeavor of universal nature. You are a dreamer of dreams.

Should you lose faith in yourself or in life, or be afraid to stand up for your ideals, you could be very unhappy. Stop being disappointed. You too have a timid, vacillating side to your nature.

You are naturally generous and forgiving, and desirous of doing well in the world. You may impulsively enter into associations and undertakings without complete understanding and find yourself imposed upon.

Wear a lot of color, especially the pastel shades, if you want to attract friends.

Love Affairs: You have a compassionate heart. You are romantic and capable of great intensity in love. However romance can quickly fade if your mate is of unaesthetic nature, for you abhor the unlovely, discordant, and inharmonious. Live up to your ideals. You enjoy the praise of loved one and fellow men sometimes trying to be the hale-fellow-well-met, neglecting your personal love until you are about to lose

You have an impressive and aristocratic bearing. No matter how tall you are, you appear noble and upright. You are very much in control of the image you send out to others. Many actors, dancers, and other performers, have a 9 personality number. You are elegant, graceful and charismatic. Many admire you.

You have a kind of stature that pulls people to you or repels them intensely. Some are jealous of you, and may seek to belittle you. You may encourage this to some extent by the amount of arrogance you radiate. You are sometimes aloof and hold yourself above the world.

Your challenge is to come down to earth with your fellow man. Conversely, you have a great compassion for humanity, and you want to dedicate yourself to improving the lot of others.

You are better when dealing with the trials of many than the troubles of a single person. You are more capable of working on the grand scale, addressing the needs of society, than on a one-to-one basis.

You are kind, sympathetic, helpful, and compassionate. Behind the controlled and calm facade, you are sensitive, vulnerable and emotional.

You have excellent taste. There is a good deal of artistic talent in you

Subconscious Self

The confidence you have in Personal Power and Competence.

Your ability to deal with sudden events and situations.

This implies no Karmic Lessons.

You have the ability to deal with all types of situations. Paradoxically you can be aloof, and perhaps indifferent and arrogant. Having done everything at least once, you are rather bored with life. You have a tendency to generalize and bring the whole to every part. You are too impersonal to be greatly concerned.

Although you may think of yourself as considerate of others--even to the extreme--you may in fact, be too self conscious to perceive the messages others are sending out.

The ability to read situations or people properly requires that you become less self-conscious, and less inhibited. You may fail to see the need to be alert to the possible pitfalls of the situation. You may have trouble with relationships simply because you misread others. Perhaps too much of yourself is being projected upon situations or people.

You back down quickly in an argument and can be "bluffed" out of your own opinion. You have a critical viewpoint and are interested slightly in everything, but violently in nothing. In a crisis, you are philosophical and resigned.

which comes with its mastery. You will be involved in practical, down-to-earth work. Use your ambitions, organizational ability, and efficient approach to carve a niche for yourself.

You will be concerned and involved with money. You will also learn the power that comes with its proper manipulation. You will be concerned with material things, desirous of obtaining the best and most comfortable for yourself. You will be concerned with status—your own status measured against the status of others. With growth and development, you will learn to achieve the power you desire.

You have the ability to inspire others to greater effort. You can do things for yourself and the world in a spectacular and valuable manner. Bridge Numbers

Making the Relationship between Core Numbers work for you.

Bridge Number 5(8-3): The need to be more flexible and adaptable is required. Be willing to go out on a limb; be adventurous and unconventional.

The combination of the business-minded, goal-oriented, determined, and visionary 8, and the playful, creative, outgoing, and happy-go-lucky 3 is unstable.

Your strength lies in using your creative talents in a business-oriented manner. Your weakness is your tendency to suppress your creativity in favor of career and business. This can make you overly cautious and slow to make decisions.

Bridge Number 1: You should rely more on your own strength and abilities. Be more decisive; don't beat around the bush; and be straightforward when expressing your thoughts and feelings. You need to take charge more often. Get off the beaten path and find original ways of doing things. Do not try to be conventional, or try so hard to behave according to the expectations of others.

Bridge Number 6(9-3)

This Bridge can only be built through service, more involvement with

family and community affairs, and a greater sense of responsibility. You should also allow your creativity to flow more freely.

This is a very creative combination. You are an artist at heart, and you must live according to that. The difficulty here is in the suppressive of talents, and the lack of serious application. The bright side reveals a true gift to inspire and motivate large groups of people.

Bridge Number 0: A 0 bridge number indicates that you have at least two core numbers alike. This is considered fortunate, and an opportunity to make real progress in the areas of life expressed by the repeated number. For example, if you have a 7 Life path as well as a Expression number, intellectual and spiritual growth are particularly strong in your chart.

However, if you have three or more identical core numbers, the balance may be off. Three 7s for instance, will make a person withdrawn and solitary, someone who has difficulty accepting his feeling or those of others.

The challenge here is to find balance. If you have three or more identical core numbers, study the meaning of this number and ask yourself if you are excessive in its characteristics or—and this is quite common—if you have turned away from this number completely.

The worst possible scenario is of a single number dominating the chart

Maturity

Your Final Attainment.

At maturity after the age of 30, you will grow in success and financial reward. You will find yourself deepening your commitment to your work. You will find it easier to overcome difficulties that manifest in your path. Your capacity to use power will grow. You will be recognized as a pillar of influence and dependability within your community. You will have to be strong and self-disciplined to avoid sudden painful material losses. Beware of an inflated ego, the surest symptom of an eminent fall.

However, a certain degree of detachment from material success is required to remain focused on the higher values of mankind. Otherwise, it will rule your personality and make money an obsession. One of your important motivations must be a desire to build, create or market in order to simply ***enjoy the game of business.***

Your wisdom and sheer common sense are recognized by many and will attract important positions. It is possible that you will be given responsibility for the care and management of other people's property. You may also be asked to guide large institutions.

You will have to guard against selfishness, accumulation for the sake of status and greed.

Maturity Number 8 with Strong Similar Energy:

At maturity at around 32 years of age, there's likely to be a re-evaluation of the satisfactions obtained with the material freedom and power that has been achieved. This mid-life appraisal is apt to focus on

- Whether the current vocation or the position in the current vocation meets your needs for money, power and status. or
- Your maturity may involve a new relation to the material world because of the growth of children, divorce, separation or new feelings about yourself and your earning power. or
- Previous material satisfactions may no longer be available because of a decreased income, or
- Additional material satisfactions may become available due to your own business acumen.

At this time in the life, you are likely to revise at least some attitudes and actions in regard to material freedom in order to achieve deeper satisfaction along with a better control of the life.

Main Challenge

Your Hidden and Undeveloped Talents

Challenge No: 0

The challenge is essentially an obstacle encountered in the early years of life, at least, **due to the emphasis placed on the negative extreme of the potential**. When no conscious efforts are made **to overcome the obstacles**, it may have a substantial adverse impact on your life. You can achieve this by converting the negative emphasis of the early years to positive potential.

The challenge represents experiences that are likely to occur frequently in your life. It shows what to strengthen or modify that you may see a clear road ahead. However, in the childhood, just about everyone approaches these situations negatively. By using the willpower, you can learn how to deal with the same forces in a constructive manner. In that case, when the situations recur -- instead of representing obstacles, the situation will provide potential for positive growth and development. When this is accomplished, the life is brought into the channels of the power and progress and lack of friends, funds, opportunity and success become things of past.

This being your 3rd challenge is also considered as your main challenge as **the impact of this challenge begins with your birth and lasts for life-time**. That means, the faster you over-come this challenge; the

faster your growth will take place.

Do not be discouraged because you have a **Cipher Challenge**. In many ways it is a special privilege. A cipher gives you broad opportunity in any direction you may choose. You can either have 'Everything or Nothing' depending on your mentality or desire. You have reached a point in your evolution when you are now ready to be trusted to choose for yourself.

Cipher takes a place of number 9 challenge. It indicates that there is a warm soul and a universal consciousness back of it. There may be big experiences to take, but the latent force to meet it is there.

During this entire period, it is as if God is standing next to you; and waiting to say "Tathastu" (Your wish is my command) to whatever you ask for. The key to success in such a situation is thinking big and having a positive attitude before you ask. **Use this blessed period to create a possibility, a future that asks you to be bigger person than you think you are.** *Create a future that moves you, touches you and inspires you. A future that will make a positive impact in your life as well as in the lives of people around you.*

Consciously avoid wasting such a privileged time lazing around and ignoring your critical responsibilities.

This is a less demanding challenge. Growth is allowed to take place without any particularly serious obstacle. This does not mean that there

will be no challenges on your path, but there is no single and consistent challenge during this period.

Create your own world. **When you fill this challenge with love, compassion and true helpfulness to man-kind, your work and your undertakings will succeed surprisingly well.**

During this period a make your choices based on your Name Number (Expression) and outstanding talents (Life Path). Read the description of these two carefully several times.

During this period, you must cultivate a desire to make the world a better place. A Cipher gives you broad opportunity in any direction you may choose—it indicates there is a warm soul and a universal consciousness back of it. There may be big experiences to take, but the latent force to meet those is there.

You are expected to know where your pitfalls lie. To successfully meet the 0 challenge you will need a knowledge of all the vibrations—the Independence of the 1; the Diplomacy of the 2; the Optimism of the 3; the Application of the 4; the Understanding of the 5; the Adjustment of the 6; the Wisdom of the 7; the Constructive Power of the 8; the

Directing Your Affairs

A year of inner growth and intuitive awareness; Material disappointments may be there.

This year you are waiting, perfecting, reflecting and keeping quiet, your tides are "out". Things may be moving toward you just the same, but the accumulation is for the future and not for immediate use.

This is another "inner year" similar to the period you experienced four years back when you spent more time than usual in quiet pursuits and were interested in the more intellectual phases of living. This is the time for the ideals to light up whatever you do. Its only concern is with inside growth; it checks you up on the principles you have been using—in business or with people.

Expand personal ideas of creativity and enjoy life with optimism but with control.

This year you are active, seeking, expressing and achieving. Things are moving with and for you. You can see the results of your activities and may expect responses to your efforts.

This is the year for you to cultivate the society of your old friends and make new ones. Plan to do a lot of entertaining and accept invitations. The conditions around you are cheerful and optimistic. Pleasure, travel, active social life, and entertainment will keep you busy.

This year you will not be overburdened with responsibilities. You may take some time off to enjoy yourself. Avoid scattering your energies and undertake too many things at a time. Be careful to finish one thing before starting another. Be happy, but don't give yourself over to frivolity.

You may hold fast to a purpose and still not be overshadowed by gloom. Some of the ideas and projects that were started or implemented two years ago would begin to show some results. Enjoy them. Put your best foot forward and do everything possible to improve yourself.

There is a "quickenning" force operating in your affairs. Make use of the *creative, inspirational, and imaginative ideas and ideals* which flood your heart. Fasten on to the dreams and visions which flash through your mind from time to time this year. Use of friendship, inspiration and imagination can mean *improved finances and happier associations*.

Do not drift along and *want everything without effort*. Do not allow yourself to be disturbed emotionally about what others do. Else, this can be *a wasted and an unhappy year*.

When you make a real effort to express and carry out some of these ideas in a constructive manner, this can be one of the *happiest years of your life*.

Friends will be of importance and value. You must try to make new friends and to join with the old ones, especially those who are attempting

During the first 5 months, friends may cause you some annoyance or emotional disturbances. but do not allow this to get under your skin; try to understand your emotions and the things others do.

Love affairs—*own or those of friends and family*—show a tendency to take on color and interest.

Practical results may not be apparent at first. They come more definitely later in the year and especially next year. Develop the dream or inspiration, especially that which gives you a fuller self-expression.

This is your optimistic and cheerful year, and you can gain far better results through being joyful and happy. Consciously avoid worry or fretting about little things.

When inspired and in good cheer you will attract money, opportunity, love, travel, pleasure, happiness, and popularity.

Avoid being an extravagant or wasting emotion, energy, or money. *Do try to spread a little sunshine and faith wherever you go.*

perfect, reflect and keep quiet.

This is a year *to work*. Avoid too much loafing and being too easy on yourself. Else you will suffer in health and won't get much satisfaction out of your leisure. In these 12 months, you *must dig, prepare, cultivate and build* if you want to have a real vacation next year. The plans and inspiration of last year must now be put into more concrete form.

Colors to help you "win" this year are Blue, Green, Emerald, Silver, and Coffee

Test everything for practicality and stability. Square up past mistakes and figure out how to avoid new ones. Work out the details of that project you have been turning over in your mind. Strengthen your weak places. Put your affairs in perfect order. Look well to your health—*especially in matters of diet*. Be sane and rational in all things. KEEP BUSY.

During this year, you are likely to have very little time for personal pleasure. Circumstances from time to time will force you to look at things from a material point of view. You must "*stay on the job*" whether you want to or not. By December end, you will definitely feel considerable satisfaction in your accomplishments.

You must manage well, face the facts and get down to business as the year requires. You can lay a foundation for security and lasting conditions

in the future. Order, system, organization, management and application are important. In *business, property, agreements, or legal matters*, attend to details with patience and honesty.

Health and financial matters of family, place the responsibility upon your shoulders. Attend to these things with love, and attempt to get orderly results this year. Then you may have the freedom and fuller life which next year promises.

This is a right time for building homes and property. It is also a suitable time for doing things which give a practical foundation for the future.

This is a splendid time for you to make the effort to put your ideas into concrete form. However you must be thrifty, careful, economical, and efficient in doing this. There is little to be gained through trusting to luck this year.

At times finances may seem practical and slow, or expenses high. But through good common sense, you can meet all requirements and come out ahead.

Avoid being careless or evading the responsibility and work—you may *regret it later*. More than that; you could find the burden still present when next year comes.

This is an important period and it brings many *blessings in disguise*—demanding a broad, compassionate, and tolerant attitude of mind.

A loss may be experienced. People or even loved ones may go out of the life, as they are no longer a part of the future or the pathway ahead. This must not be taken as a sorrow of long duration; instead make an effort to turn it into the ways and means for a more useful life. It is necessary to let go of an old condition to clear the way for a freer and more useful life.

Some phase of the life during this period may be disappointing; filled with deep feeling and drama; and the period may not be truly happy. Yet there are assets and privileges to be taken advantage of.

There may be many emotional experiences through romance and love affairs. These can be interesting but, also disturbing if love is personal and clinging. Love affairs for personal vanity break up easily. Even deep and lasting love may have to be given up to learn the lesson of understanding and that true love simply loves; it does not seek to hold or limit.

However, when there is lack of honesty legal matters and lawsuits may enter in your life. Others may try to take what is not rightfully theirs. Quarrels gain very little and lawsuits can be long drawn out. As long as the purpose is right and the good of all concerned, you will be the

Without change there is no growth. But to "live" does not mean to sow wild oats (*e.g. having sex with many partners*). Instead, plan a definite goal for advancement. Be resourceful enough to make the adjustments which are necessary for improvement.

You may feel restless, impatient with things which move along slowly. You may experience resentment towards those who hold you down or bind you. Avoid taking in hurried actions for haste makes waste. It could lead to deep regret later on in the cycle of life you are now passing through.

Think **win-win**. All changes should be to the advantage of others as well as yourself, if you wish to get the best out of the year. Make every effort to open a channel for progress. Avoid quarreling or burning your bridges behind you. Do not jump impulsively from the frying pan into the fire. Break up some of the old routine and turn many of the details over to others but with wisdom and discretion. The eventfulness, excitable conditions, and your own inner unrest can make the year active.

The changes, new contacts, and new opportunities may confuse you. Accept them all in the spirit of progress and advancement. Live up to the "push" which life is exerting upon you. Get fun out of meeting conditions. Show versatility of thought and resourcefulness in action. Travel, move, or at least do something to freshen up.

mind and acquire a good understanding about life. Because you are well versed in the art of conversation and can express yourself clearly, you are good advisors, teachers, orators, and writers.

You are flexible in your ideas and freely adopt what is beneficial from all religious practices. Although you do not commit yourself to any conventional religion, you are religious at heart. You believe in the truth, its practical application, and its beautiful expression in life.

You love success and wish to be successful in everything you do. You also like to be appreciated every step of the way. Like number 1 people, you need a lot of attention, and for that you learn many tricks, such as the art of conversation, expressing yourself through gestures and postures, and making jokes and puns.

You are hard working throughout your life and keep yourself busy with something or other all the time. Even if you feel compelled to rest, you are restless and just cannot relax. You can catnap between jobs; that's why you can work on many projects simultaneously. When one task becomes tiresome, you switch to another. In this way, you do many things and earn through many sources. You are extremely conscious in carrying out your duties and believe in performing them as your yoga. You believe that "Devotion to duty is divine."

You are successful in the execution of any job you undertake and usually

finish what you start. This gives you self-confidence, which is the keyword of your life.

You are true to your word and honour your commitments. This makes you dependable. You love order and discipline. You obey the orders of those whom you respect and think to be your superiors. You wish that those younger and subordinate to you do likewise. This sometimes creates problems, because you become dictatorial and tyrannical at home with your dependents.

You are strongly built, healthy, and full of stamina. You make friends easily and have a wide circle of acquaintances. You are fortunate in that you receive love, affection, help, and guidance from elderly people, relatives, and those well-placed in society.

You are always optimistic, creative, cheerful, inspiring, and full of humor. Sometimes you create problems for yourself by making fun of people who do not appreciate your humor. These people easily become your critics and enemies. Your short-tempered and outspoken behaviour often offends people and slowly you develop a circle of critics (much smaller than your circle of friends and admirers). Nevertheless, you manage to keep a smile and do not concern yourself with your opponents.

You are always surrounded by members of the opposite sex. A weakness for sex is one of your problems. However, you are selective and engage

You may have physical relationships with mates who are born on 1, 10, 19, 28, 3, 12, 21, 30, 6, 15, 24, 9, 18, or 27 even if you do not bind yourself in matrimonial ties. But generally, you are chaste and pure. You honour your marital vows and are loyal to your partners, even though you do not respect them and sometimes misbehave with them.

You love your kith and kin and are strongly attached to family; you bear with pleasure the hardships required of you to meet family obligations. You are loyal and devoted to your parents. You sacrifice your personal comforts to keep an atmosphere of love and harmony in your family. Even if there are deficiencies in your partners, you stand by their side to help you. Your life partners are usually attractive, chaste, loyal, and give you their full support.

You are universal helpers and help all, even your enemies, but only when asked. You are devoted to all good causes and offer your help immediately, without bargaining.

You are fond of, and benefit from, travelling. You are privileged to meet celebrities of your time from many fields. You love to ride horses.

Your main weaknesses are over-ambitiousness, excessive optimism, and extravagance; you exaggerate the truth and are short tempered, uncontrollably dictatorial, jealous, and prideful.

You must consciously...

- Stay away from unnecessary discussions.
 - Avoid the company of low people.
 - Try to control your tempers and eat and drink in silver pots.
 - Spend money carefully. Money comes to you easily and from many sources, but it also goes out easily for objects of decoration and comforts, which creates a financial imbalance. Save money for your future.
 - Shun overeating and the use of fats and hot spices. Jupiter, the Lord of number 3 people, rules over the liver. Since you work with the energy of liver, you should avoid foods that are hard on it. A damaged liver is unable to metabolize proteins properly and break down the amino acids produced in the body from eating animal-based foods. Avoid red meat, such as beef and bison. As well, you should eliminate or limit the eggs and dairy products you eat.
 - Drinking, smoking, and many sex partners can damage liver quickly.
- High-Sodium Foods
- Salt contains sodium, which is not processed completely by a damaged liver. Canned foods, including soups, meats or vegetables, are high in salt and sugar, which cause abdominal swelling and fluid retention.
 - Use garlic, pepper or spices to flavor foods instead of salt.
 - Avoid sugary foods such as candy, ice cream and cake and salty

foods like potato chips, which are simple carbohydrates with high levels of sugar and sodium, respectively.

- Eat foods with natural sugars and fibrous carbs, such as strawberries, oranges or apples, to avoid unhealthy levels of sugar and sodium in your liver.
- Chronic alcoholism contributes to the onset of liver damage because it inhibits proper absorption of nutrients, forcing the liver to become toxic. Avoid drinking beer, wine or champagne as well as any form of liquor and even cough syrup.
- Regular use of fenugreek seeds, anise seeds, coconut powder, almonds, black pepper, and honey with a pinch of saffron can be helpful.
- Include milk, cheese and yogurt. Protein is important in overall nutrition, so opt for lean meats from poultry and non-meat protein sources such as beans and nuts. You may also consider trying plant-based products such as soy milk.
- Eat Generous Amounts of Liver-Supporting Vegetables, Herbs & Spices: garlic, onions, broccoli, cabbage, cauliflower, collard greens, kale & brussel sprouts. And when you eat them, be sure to slather them in traditional fats to make their nutrients even more accessible. Also, feel free to drink tinctures or teas with milk thistle, or cook with tumeric and cinnamon.
- Foods that cleanse the Liver: Garlic, Grapefruit, Beets and Carrots, Green Tea, Leafy Green Vegetables such as bitter gourd, arugula,

dandelion greens, spinach, mustard greens, and chicory, Avocados, Apples, Olive Oil, Alternative Grains like quinoa, millet, and buckwheat, broccoli, cauliflower, Cabbage, Lemons, Walnuts and Turmeric

- Avoid being proud, overly optimistic, ambitious and boasting about your achievements. Stop losing heart with little failures and be patient.
- Learn to respect your life partner—control your anger, passions and sensuality. Control your dictatorial attitudes at home and allow other members of the family their freedom.
- Massage yourself regularly with oil, to prevent skin troubles. Also avoid acid and gas-producing foods. Eat only when you are hungry.
- Earn money by proper and legal means only.
- Undertake journeys when you feel that the time is unfavourable where you are.
- Learn to say no because your habit of saying yes to everything creates problems. Those who depend on you start expecting things and because yes means nothing to you, this causes disappointment.
- Learn to relax and avoid taking on more work and responsibilities than you can handle, which causes you stress.

Weak Periods: The months of October and November are unfavourable. During this period, you should avoid starting new projects or undertaking long journeys.

Health and Diseases: You are susceptible to the following problems related to wind or air (vata dosha):

- **Frail nerves.** According to Ayurveda, the nervous system is related to the humor of wind, the air element. Nerve function is related to the principle of activity and movement; the humor of wind is the only active principle out of the three body humors (bile and mucus are immobile). A massage with oil containing fenugreek seeds that have been cooked in a little vinegar can be very helpful for this condition. Sesame oil produces the greatest benefit.
- **Skin problems.** As a result of disturbance in the humor of wind (vayu), the body feels dry. This dryness creates skin problems of all kind.
- The use of garlic, ginger, asafoetida, and fenugreek seeds in food, and the avoidance of indigestion, acidity, and constipation can help calm the aggravated humor of wind. However, the excess use of garlic, ginger, and asafoetida can also cause dryness.
- The use of gram flour (chickpea flour) in bread, and the ingestion of carrots or carrot juice, can help cure skin diseases.
- **Worrying and uneasiness of mind.** Meditation, breathing

exercises, deep and slow breathing, morning and evening walks along the side of a flowing river, reading scriptures, chanting the mantra, and the singing hymns, bhajans, can help.

- **Increase in sexual urge, lethargy of private organ.** By maintaining a healthy diet (not too oily or greasy), by regular use of date-milk (a mixture of milk and mashed dates that has been boiled and topped with a pinch of saffron), and by oil massage, the lethargy of the male organ can be helped.
- To balance the sexual urge, you could divert your attention to some other interesting subject. This subject can be partially related to sex, but it should bring the energy into the higher chakras. Sexual energy can be diverted and channelled in other directions so as to function as a creative force.
- **Arthritis.** This is another disease created by the aggravated humor of wind. A controlled, gas-free diet, along with regular massage done with Mahanarayan oil or Wintergreen oil (to which eucalyptus oil and mint oils have been mixed in equal proportions) can help.
- Also, swallowing small, round balls of beeswax (the size of a garbanzo bean) for forty consecutive days at the beginning of the winter season is very beneficial.
- **Impurity of the blood.** Fasting on herbal tea and blood-purifying fruit juices can help this problem. A change in diet to vegetarianism, use of alkaline foods, Use of sprouts, regular morning walks, breathing exercises, and meditation can also cure impurities of the

blood.

- **Heart troubles.** Wearing Rudraksha beads in the form of a necklace or armband can help the heart. Also eating rose petal jam—known as Gulkand, ingesting powdered pearls mixed with cream or honey (and mixed with the ring finger), and avoiding fat and hot spicy food can help the heart. Purification of the abdominal tract, lungs, and chest cavity can be good; breathing exercises, vegetarian diets, alkaline foods, meditation, and listening to relaxing music can help also.
- **Diabetes.** The use of fenugreek seeds (both as tea and as a spice in all foods), breathing exercises, morning walks, gem remedies, and a change in food and daily life habits can all help this condition.
- **Poisoning, Heat, Eruptions, Jaundice, and Paralysis.** These are other ailments for which number you must take precautions after you pass thirty-five. Frequent use of yellow sapphire powder protects you from many diseases. This powder should be mixed in a teaspoon of honey or cream with the ring finger of the right hand and taken orally with the same finger.

Fasting: You must observe fast on Thursdays. Offer homage to Jupiter; abstain from eating bananas; abstain from doing laundry, shaving, using cumin seeds, and using oil for massage and in foods (ghee and butter can be used in foods).

Additionally when you chose to fast on the full moon day and observe a
